

FEP

MODULAR EXTERNAL FIXATOR

Lightweight
Modular
Sterile

Indications

Scan the QR-Code to get more information about the device

Open, closed and intra-articular fractures.
Nonunions, limb lengthenings, deformity corrections and axial corrections.

FEATURES

CLINICAL ADVANTAGES

Sterile kit

Available in three sizes

Versatile

Ready for use

Wide range of application

Allows independent corrections on all planes

Kit FEP

Kit FEP Small - 5000060MST

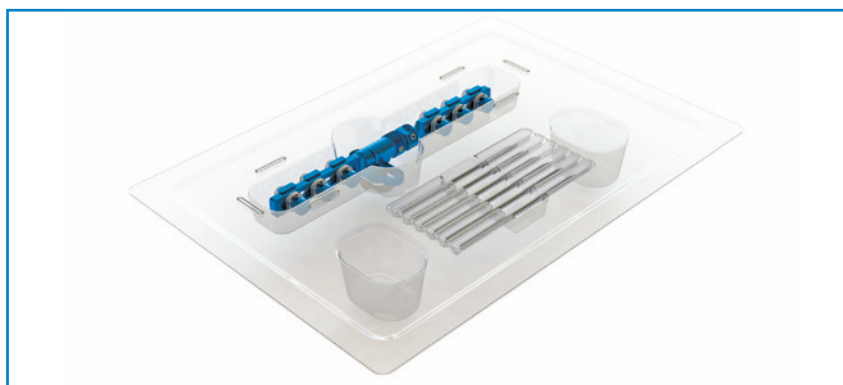

Description	Qty
Body of the fixator Small	1
Self-drilling cortical screw Ø 4.0 mm L 120 mm	4
Single clamp for FEP Small and Medium	4

Kit FEP Medium - 5000001MST

Description	Qty
Body of the fixator Medium	1
Self-drilling cortical screw Ø 5.0 mm L 140 mm	6
Single clamp for FEP Small and Medium	6

Kit FEP Large - 5000030MST

Description	Qty
Body of the fixator Large	1
Self-drilling cortical screw Ø 6.0 mm L 180 mm	6
Single clamp for FEP Large	6

FEP kit allows independent corrections in all 3 planes. The joint unit allows a procurvatum-recurvatum correction. The compression-distraction unit allows the correction of rotational defects. The micrometric regulators allow a varus-valgus correction. Any corrections can be made independently without losing the previous correction.

The elasticity of Aluminium alloy 7012 favors the reparative processes of the fracture site while ensuring an optimal stability.
